

# NOW OFFERING Insulin Pump Clinic

Clinic Director

**Varsha Babu, MD**

*Diabetes and Endocrinology*

Dr. Babu is board certified in Endocrinology and Internal Medicine.

She is fluent in English and Malayalam.

## New Testing and Education for Better Diabetes Management

University Diabetes and Endocrine Specialists and University Medicine Associates offer comprehensive clinic services for patients with insulin pumps and continuous glucose monitors (Freestyle Libre 14 and Dexcom G6).

Multiple insulin pumps are available to match each patient's unique situation. Physician assistants, medical

assistants, and dietitians are in the offices to help with choosing a pump, making adjustments, and carbohydrate counting support.

The offices have access to retrieve recordings from the pumps and sensors to continually review progress.

Our comprehensive clinic ensures that coordinated services are available to patients to improve diabetes management results and prevent diabetes related complications.
