

NOW OFFERING Diabetes in Pregnancy Clinic

Clinic Director

Shreela Mishra, MD
Diabetes and Endocrinology

Dr. Mishra is board certified in Endocrinology and Internal Medicine.

She is fluent in English and Hindi.

Comprehensive Care Team For Support of Patients:

- Providers include endocrinologists and physician assistants all experienced in the care of pregnant women with diabetes and endocrine disorders
- Certified diabetes educators
- Registered dietitians
- Experienced medical assistants

Who to Refer:

- Women with gestational diabetes
- Women with pre-existing diabetes complicating pregnancy
- Management of women on insulin pumps during pregnancy
- Management of any endocrine conditions during pregnancy such as thyroid disorders

Team Approach to Patient Care:

- At the initial visit, all patients are seen by a provider as well as the registered dietitians for nutrition counseling
- All patients are provided detailed nutritional information on management of gestational diabetes and sample meal plans.
- All patients are educated on the use of glucometers and insulin administration if needed by our experienced MA's
- We follow American Diabetes Association guidelines in management of women with gestational diabetes and pre-existing diabetes during pregnancy
- University Diabetes and Endocrine Specialists is an accredited diabetes and education program by the American Association of Diabetes Educators

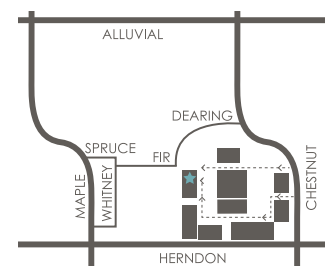

Goals:

To provide quality, comprehensive and coordinated care to women with diabetes during pregnancy in one location, with resources for management of diabetes during pregnancy to ensure a safe delivery.
