

Critical Care Telehealth Consultations

Who Can Bill?	WHAT IS THE SERVICE?	BILLING CODE	TIME REQUIREMENT	CRITERIA / DOCUMENTATION BEST PRACTICES
A Physician or Other Qualified Health Care Professional	Telehealth consultation, critical care, initial	G0508	60 minutes	<ul style="list-style-type: none"> • Consultations for patients requiring critical care services • Furnished via interactive telecommunications (audio-video) system • Document time spent communicating with patients and providers • Document the provider who has requested the consultation • Document the reason for the consultation
	Telehealth consultation, critical care, subsequent	G0509	50 minutes	

Telehealth Services 'dot phrase' example:

"I performed this service using real-time telehealth tools, including a live video connection between my location and the patient's location. Prior to initiating the service, I obtained informed verbal consent to perform this service using telehealth tools and answered all of the patient's questions about the telehealth interaction."
